

## YOUR PARTNER IN ADVANCED PLANT PATHOLOGY AND MICROBIOLOGY SERVICES

### UNLOCK THE FULL POTENTIAL OF YOUR HORTICULTURE, TURF, AND AGRICULTURE EFFORTS

Westgate Labs is a leading provider of specialised diagnostic services based in the vibrant agribusiness hub of Orange, NSW. At Westgate Labs, we are committed to delivering precise and reliable results, powered by our advanced laboratory facilities and a team of dedicated experts. Accredited by NATA and ASPAC, our lab ensures that every test meets stringent quality standards, guaranteeing you can make informed decisions with confidence.

#### OUR SERVICES

**Our Comprehensive Range of Services Include:**

##### PLANT DISEASE DIAGNOSIS

- ▶ Timely and accurate plant pathogen identification to help manage and mitigate crop damage effectively.

##### MITE AND INSECT IDENTIFICATION

- ▶ Crucial for effective pest management and control strategies.

##### MICROBIOLOGY TESTING

- ▶ Comprehensive microbiological analyses of food, beverage, soil and water samples, tailor made to your specific applications.

##### NEMATODE IDENTIFICATION

- ▶ Dedicated diagnostic services for identifying plant parasitic nematode species, indispensable for assessing soil health and planning crop rotation.

##### PATULIN TESTING

- ▶ Specialised analysis to detect the presence of patulin, a harmful mycotoxin commonly found in pears and apple products, ensuring your produce meets food safety regulations and protects consumer health.

#### CUSTOM CONTRACT SERVICES

- ▶ In our state-of-the-art microbiology lab we have the ability to take on projects and develop new methodologies to suit our customers' needs across a range of industries.

#### SPECIALISED SKILLS IN METHOD DEVELOPMENT

We don't just provide services; we create solutions. Westgate Labs specialises in developing innovative testing methods, whether it be for monitoring crop health or for ensuring the safety and integrity of food products. Collaborate with us to design a testing protocol that fits your specific requirements and helps maintain the highest production and safety standards.

#### WHY CHOOSE WESTGATE LABS?

- 1 ACCREDITED EXPERTISE**  
Rely on a laboratory recognised for its high standards and thorough testing protocols with over 20 years of industry experience.
- 2 CUSTOMISED SOLUTIONS**  
Benefit from our flexible approach to meet your specific diagnostic needs.
- 3 COMPREHENSIVE SUPPORT**  
From the field to the market, ensure every aspect of your production is backed by expert analysis.
